

A COMPANY AS DIVERSE AS SOUTH AFRICA ITSELF.

Alexander Forbes is on track to becoming a company that demographically represents South Africa. Our commitment to transformation and our level 3 B-BBEE rating means:

- 4 black MDs managing profitable operational divisions under the leadership of a black Group CEO
- 64% profit under control of black MDs
- 3,527 employees of which 1,943 are black employees and 1,217 are black female employees
- 388 senior managers of which 100 are black.

With plans being implemented to further increase black employee representation at all management levels, Alexander Forbes is confident its level 3 empowerment status will soon be improved.

Transforming our business is the right thing to do.
